## PROFILE

I have 3+ years of Experience in Analyzing, Designing, Developing, and Integrating Front-End & Back-End based applications. Experience in developing applications using Typescript, React, React Native, Node js, and Express. Seeking a role as Front-end and Node js Developer.

## EXPERIENCE

- Apr 2024 - Now

**Logex Tech Company - Full stack Developer (Part Time).**  
I specialize in React and Node.js. I am responsible for fixing bugs and improving websites, ensuring they run smoothly and efficiently. My work includes developing and maintaining features for various projects, including the website <https://life-ward.com/>, where I contributed to enhancing user experience and functionality.
- Jun 2023 - Now

**Shoaa Company - Full stack Developer (Full Time).**  
Developed and managed comprehensive full-stack service projects across various Egyptian government sectors, focusing on electricity consumption analysis, meter installation, reading, maintenance, and customer support. Collaborated effectively with a dedicated team to strategize, execute, and deliver high-quality solutions.
- Jul 2022 - Jun 2023

**Bitspire Company - Full stack Developer (Full Time).**  
Develop frontend and backend websites using React and Node.js. Responsibilities include creating features and interfaces from wireframes, ensuring performance and user experience, and writing clean, testable code. Implement CI/CD pipelines for efficient development and deployment, and collaborate with backend developers and designers.
- Mar 2022 - Jul 2022

**eSmart Company - Front-end Developer (Part Time).**  
Developed and managed a comprehensive scheduling system for a clinic in Saudi Arabia, optimizing appointment allocation, patient booking, and rescheduling to enhance operational efficiency for doctors

## EDUCATION

- Apr 2022 - Sep 2022

**Information Technology Institute**  
**Front-End & Cross-Platform Intensive Code Camp**
- 2016 - 2020

**Mansoura University**  
**BSc in Computers and Information.** (Grade: Very Good).  
Graduation Project: Building a mobile learning app with a chatbot by Android, Java, Python, and NLP.

# SKILLS
